

SINGLE DISTILLATED WATER APPARATUS

The LABITECH single water distillation is designed for reliable continuous operation.

Thanks to It's quick dynamics and excellent quality of distillation. This new generation of water distillers has real appeal.

Features :-

Digital LCD control.

Easy to use.

Safety system: thermostat, low water level and over heating cut-out.

Anti-corrosion stainless steel internal chamber(304)

Electrostatic painted outer body

Anti stain

Classic control type.

Float switch

Contain one heater

Coil-type condensation structure with cooling effect produces.

Economic and low electricity use.

Clean and maintain.

All spare parts are available.

Wide capacity ranging 4L-8L-10Liter and more upon requests.

MODEL	SD4	SD8	SD10
Conductivity at 20°C	2.5		
Heater(KW)	3KW	7KW	9Kw
Capacity	4L	8L	10L
Dimensions	43.5*37*22	63.5*37*26	98*36*40
Interior material	Stainless steel		
Exterior material	Electrostatic		
Power	230V/50		
Safety	Over temp CUT-OFF
